OUR STORY

In 2013, a love story blossomed in the heart of Pampanga. From a furniture piece she designed and created for a project, Kat was led into a team that would help her live the dream she has always kept in her heart.

From one commissioned piece to another, residential projects to commercial spaces and offices; the small workshop expanded, and her Genteel family grew.

Genteel Home is a lifestyle brand that aims to respond to every space's needs by thoughtfully curating tailored furniture pieces. The best part is that everything is crafted with kindness. As Ms. Kat would say,

“At Genteel, we live to love.”
